FREE & OPEN SOURCE

Agent Control Plane

Proof of what an agent actually did.

Home of the Agent Attestation Record: a portable, Ed25519-signed record of what an agent claimed versus what an independent verifier found in the real system. Anyone can check it with a public key.

01 Signed and portable

Ed25519 signatures anyone can verify from a public key.

02 Claim versus reality

Each record pairs what the agent said with what a verifier saw.

03 A conformance ladder

From a basic signed record up to a transparency log.

WHO IT'S FOR

Teams that run AI agents and need to show their work to clients, auditors, or managers.
