AINode

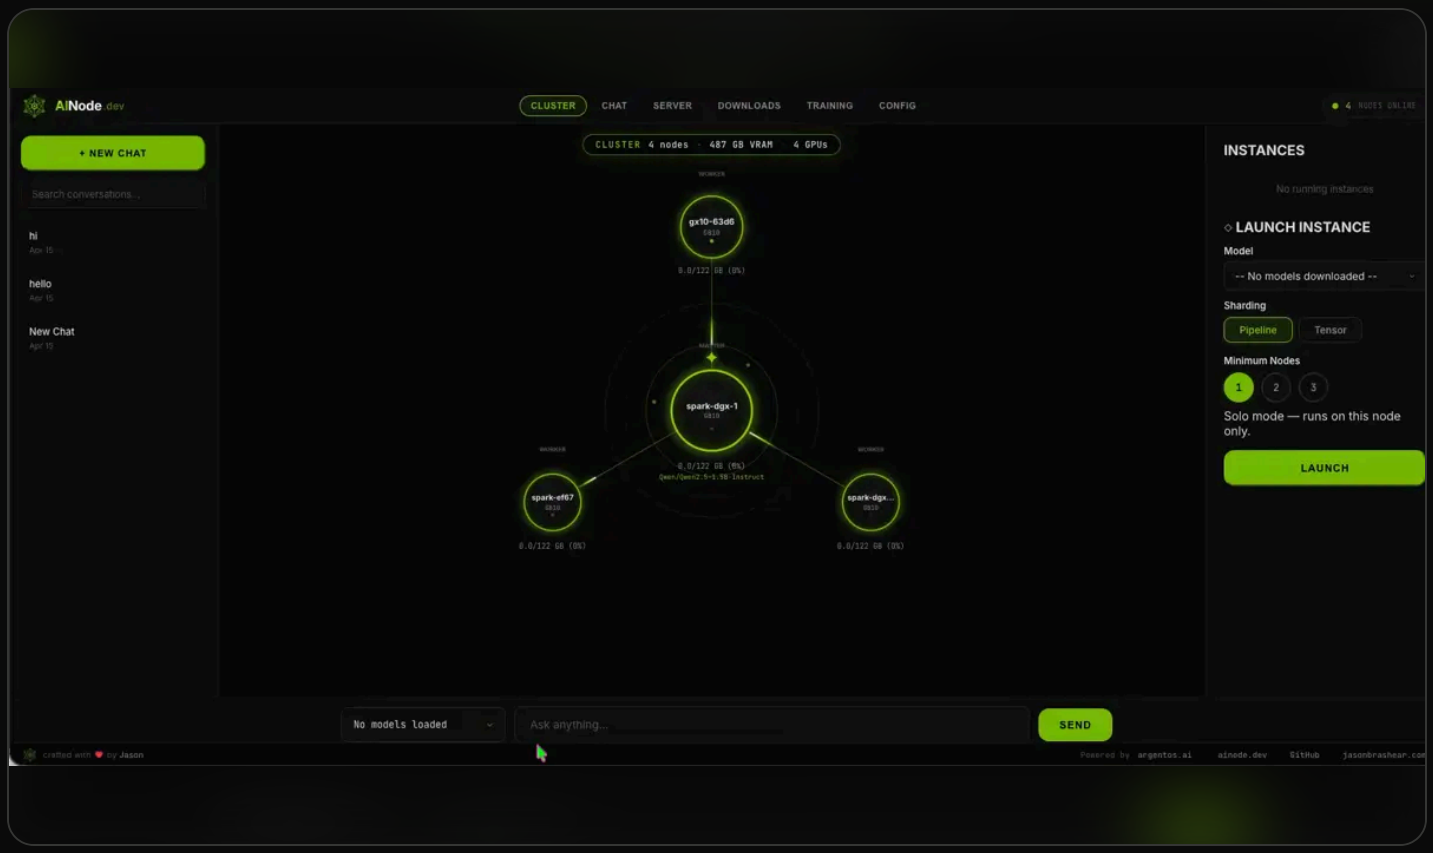

AI TOOLS LIVE NOW

FREE & OPEN SOURCE

AINode

A complete local AI platform. One command per box.

AINode turns an NVIDIA GPU box into a full local AI platform: browser chat with measured throughput, an OpenAI-compatible API where one master fronts the fleet, fine-tuning, and automatic multi-node clustering.

01 OpenAI-compatible API

Point existing apps at your own hardware.

02 Fine-tune locally

Quantization and LoRA fine-tuning in the browser.

03 Scale across boxes

Multi-node discovery with cross-node tensor parallel.

WHO IT'S FOR

Teams and builders running AI on their own NVIDIA hardware.
