FREE & OPEN SOURCE

Frontier Infra

The missing pieces of the agent web.

AI agents now read websites, take real actions, and write code on their own. Frontier Infra builds the open plumbing that lets teams govern them: contracts, independent checks, portable receipts, and honest conformance evidence.

01 Agent-web standards
Agent View Layer, Agent Attestation Records, and the Agent Discipline Layer.

02 The Machine
A blueprint for long-running agent work under contract, checked against reality.

03 Ships where you work
Plugins for Claude Code and ChatGPT, all MIT licensed.

WHO IT'S FOR
Teams building or running AI agents who want open building blocks no single vendor owns.

PRICING
Free
Open source (MIT)

GOOD TO KNOW
- MIT licensed, owned by no vendor
