R Roundtable

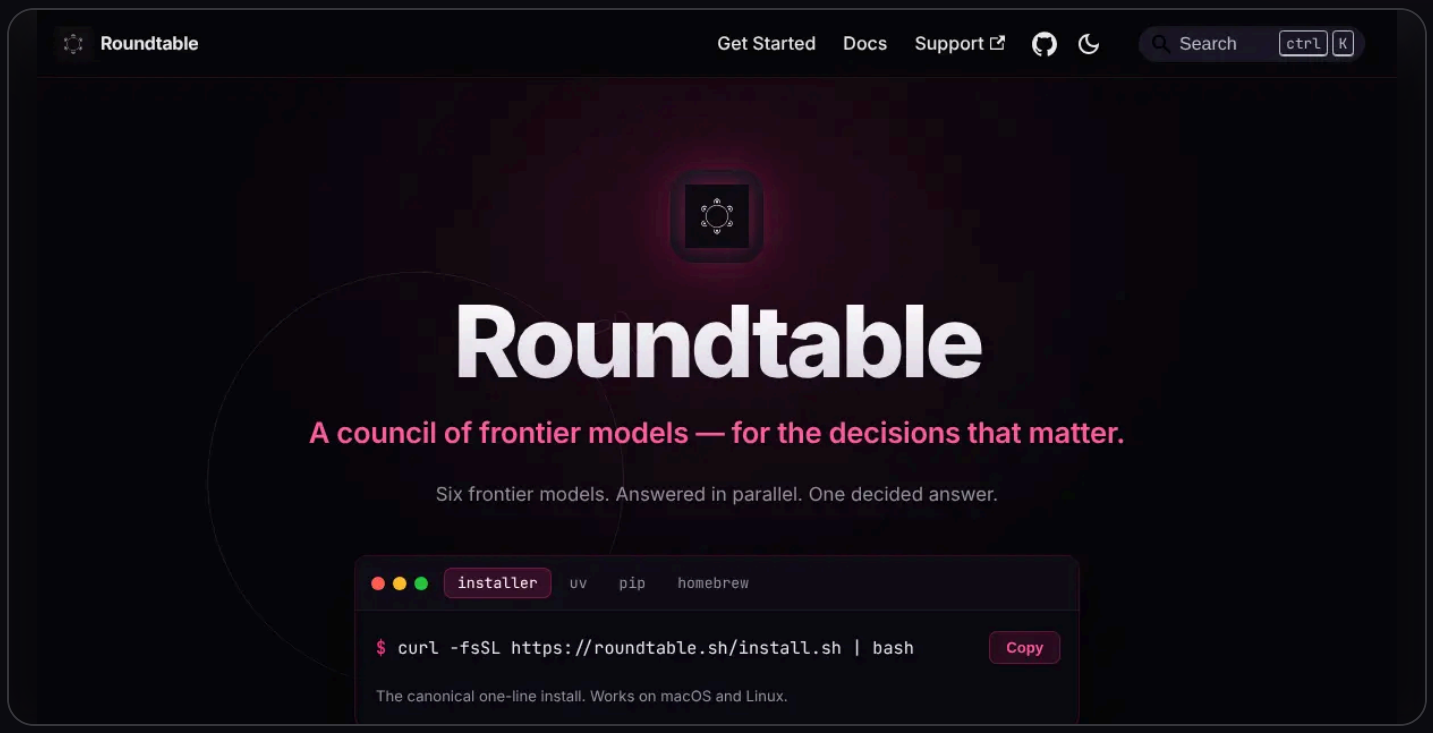

AI TOOLS LIVE NOW

FREE & OPEN SOURCE

Roundtable

A council of frontier models.

A free command-line tool that asks six frontier AI models the same question in parallel: Grok, OpenAI, GLM, MiniMax, Claude, and Gemini. Run it as an advisory panel or a chaired deliberation to one answer.

01 Six seats
Six models from six different labs.

02 Blind by default
Each model answers without seeing the others.

03 One decided answer
Optional deliberation until the chair calls consensus.

04 Runs anywhere
CLI, MCP server, and Claude Code plugin.

WHO IT'S FOR
Developers and decision makers who don't want a single model's blind spots.

PRICING
Free
Free CLI, on GitHub
