FREE & OPEN SOURCE

Udder

Big thoughts. Less typing.

Local-first voice dictation that turns what you say into emails, notes, and ideas. Free and open source, with your words processed on your machine or any endpoint you choose.

01 Local by default
Your voice stays on your computer.

02 Your endpoint
Point it at any speech service you choose.

03 Modes and snippets
Shortcuts for emails, notes, and brain dumps.

04 No subscription
Free, open source, no meter.

WHO IT'S FOR
Anyone who would rather talk than type.
