FREE & OPEN SOURCE

XooMe

Eavesdrop on yourself. It's healthy now.

An open-source AI meeting recorder and lifelog for macOS. It transcribes Zoom, Teams, in-person conversations, and Limitless Pendant audio, all locally on your Mac.

01 Local transcription

Audio stays on your Mac.

02 Every source

Zoom, Teams, in-person, and Pendant audio.

03 Pendant rescue

A free utility for stranded Limitless owners.

WHO IT'S FOR

Mac users who want meeting notes without sending recordings to someone else's cloud.
