PITCH SLICK

AmpCortex

Business calling, managed in one place.

A cloud business phone system where AI voice agents are first-class extensions. Manage numbers, extensions, voicemail, desk phones, softphones, and call tracking from one dashboard.

01 The essentials

Numbers, extensions, voicemail, desk phones, and softphones.

02 AI voice agents

Agents answer calls, check ticket status, and open new tickets.

03 Marketing call tracking

Give each ad its own number and see which one rang.

04 Auto-provisioning

Add a tech in ClientSync and the extension is created.

WHO IT'S FOR

Small and mid-size businesses that want a modern phone system with AI that answers.

PRICING

Starts at $29 per user per month

Commercial

GOOD TO KNOW

- Built on HIPAA-eligible Google Cloud infrastructure
- Titanium runs its own support line on it
