PITCH SLICK

ClientSync

The platform Titanium runs its own service desk on.

An all-in-one MSP management platform: client IT documentation, your MSP tools, and AI ticket handling in one place, so every technician works from the same source of truth.

01 One source of truth

Every client's IT documentation, history, and tickets together.

02 AI ticket intake

Routes each ticket to the right tech by issue type and workload, and drafts the first customer reply.

03 Integrations

Connects Atera and about a dozen other MSP vendor tools.

04 Client portal

Self-service updates for clients, plus compliance tooling.

WHO IT'S FOR

MSPs that want one system of record for every client instead of a dozen tabs.

PRICING

14-day free trial

Commercial

GOOD TO KNOW

- In production across Titanium's 100+ clients
- Pairs with AmpCortex, Anvil Mail, and Titanium Backup
