AI AGENTS LIVE NOW

PITCH SLICK

KrakenOS

A digital workforce with its own managers.

Agentic AI for your business. Every project gets its own lead and its own team of AI workers, all run by one lead that acts as project manager. Anything that needs a person comes up to one list.

01 One conversation

You talk to one lead; workers never message you directly.

02 The night shift

Leads are checked every 30 minutes, with a summary waiting before 8:30.

03 Checked before it ships

Customer-facing work is fact-checked before you see it.

04 Right model for the job

Leads pick the AI model that suits each task.

WHO IT'S FOR

Business owners who want work done overnight without managing a dozen bots.
