PITCH SLICK

Krux

Multiplex everything.

The multiplexer for KrakenOS. Sessions, agents, shells, and hosts, split, attached, and supervised from one fast surface. Works on its own, or bundles with KrakenOS as the developer's view into it.

01 One surface
Every session, agent, shell, and host, keyboard-first.

02 Composable
Panes, layouts, and workflows you can script and share.

03 Production-safe
Permissions, audit trails, and observability built in.

04 KrakenOS native
The dev view into the KrakenOS world.

WHO IT'S FOR

Developers and operators running many agents and sessions at once.

PRICING

Standalone or bundled with KrakenOS

Commercial

GOOD TO KNOW

- Invites go out in waves
